Welcome to Our Beautiful Office!
AN EMPHASIS ON EDUCATING

Our beautiful and private consultation room is where Dr. Kravitz will review your treatment plan at length. Our consultations are always 100% complimentary. We take great pride in our ability to teach and to answer questions. The two adjoining consultation rooms connect to transform into an in-office classroom where doctors come from all over the country for continuing education courses taught by Dr. Kravitz.

FIVE ELEGANT BRUSHING STATIONS

At Kravitz Orthodontics, we take great pride in creating healthy and beautiful smiles. Throughout our office are five individual brushing stations where Dr. Kravitz and his team will review proper brushing instructions at each visit. Each new patient will also receive a home and travel brushing kit with all the essentials.

STATE OF THE ART OFFICE

The unique open bay of our South Riding office has received nationwide praise. Its design reflects many of the ideals upon which our practice is based. Our open treatment bay provides maximum visibility so you may watch your child at all times or come into the bay and speak directly with the doctor or technician about the procedures being performed. Adjacent to the treatment bay are two private rooms for our adult patients and those who prefer a quieter atmosphere.
Even though most people think of pre-teens and teens when they think of orthodontics, there are good reasons your child should get an orthodontic evaluation much sooner. The American Association of Orthodontists recommends a checkup with an orthodontist no later than age 7.

**Early treatment may give your orthodontist the chance to:**
- Guide jaw growth
- Lower the risk of trauma to protruded teeth
- Correct harmful habits or crossbites
- Improve appearance, self-esteem and speech
- Eliminate crowding
- Avoid extractions
